Metric and Imperial Compatible

This series of rigid frames is designed to support optical breadboards in a laboratory or production environment and is ideal for applications where vibration isolation is not a critical factor. This series of frames is available in two heights: 700 mm or 800 mm. They can be upgraded to passive isolation by fitting the PWA074 or PWA075 mounts (see page 18 for more details).

The breadboard support frames featured here are stocked for immediate shipment. Thorlabs also has the tooling and supplies necessary to offer any of the 32" (800 mm) high frame sizes in a 28" (700 mm) variant quickly and efficiently with minimal lead time.
