Breadboard Lifting Handles

These handles enable breadboards to be lifted and transported easily. The glass fiber-reinforced polymer handle is safety rated to carry 550 lbs (250 kg). Each handle has two mounting holes that are used to bolt the handles to the breadboard and is supplied with all the required screws. For larger breadboards, one handle at each corner is recommended.

Specifications

- Each Handle Safety Rated to Carry 550 lbs (250 kg)
- Material: Glass Fiber-Reinforced Polyamide (PA) Technopolymer
- Resistant to Solvents, Oils, Greases, and Other Chemical Agents
- Distance Between Mounting Holes: 6" (150 mm)

Features

- Easily Lift Breadboards
- Compatible with all of Our Imperial and Metric Breadboards
- 1/4" (M6) Mounting Slots, Screws Not Included

ITEM #	\$	£	€	RMB	DESCRIPTION
BBH1	\$ 16.95	£ 12.20	€ 14,75	¥ 135.09	Breadboard Lifting Handles (Set of 2)

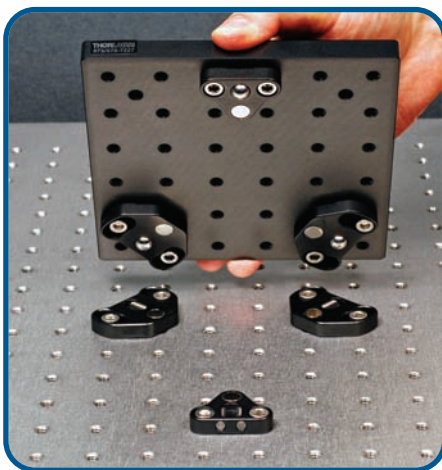

Note: 1/4" (M6) screws are not included.

Kinematic Breadboard Seats

The KBS98 Kinematic Seats can be used to convert any breadboard into a kinematic platform that can be removed and replaced with a high degree of accuracy. Two of the three seats of each set (top and bottom) have elongated slots to allow the seats to all point to a common center in the middle of the breadboard.

- Build Your Own Kinematic Base System with Our Breadboards
- Magnetically Coupled with High-Strength Rare-Earth Magnets
- Turn Any Breadboard into a Kinematic Base Using the 1/4"-20 (M6) Taps on 1" (25 mm) Centers

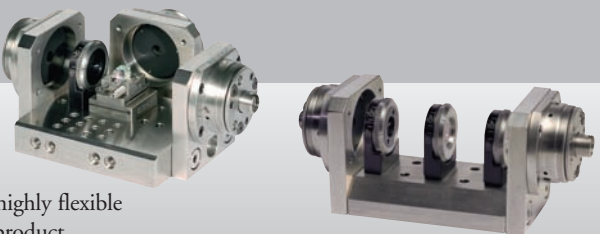

Slotted design allows the three V-Grooves to be aligned to a common center for greatest repeatability.
